

# H2HUBB Certified Hydrogen Performance **CERTIFICATE**

This certification validates the following product:

*QLife H<sub>2</sub> Alpha Hydrogen Water Bottle*

## **Verified Test Results:**

- 5-Minute H<sub>2</sub> Concentration:  
**3.91 mg/L (ppm)**
- 10-Minute H<sub>2</sub> Concentration:  
**6.50 mg/L (ppm)**
- Peak H<sub>2</sub> Concentration:  
**6.81 mg/L (ppm)**

Using H2HUBB's custom Unisense H<sub>2</sub> Microsensor, we obtained highly accurate dissolved hydrogen readings, confirming that the device is engineered to generate pure molecular hydrogen exclusively for hydrogen water production. Testing also verified no harmful byproducts or contaminant gases in the drinking water.
